

Amendments to the Specification:

On pages 2-3, lines 19 - 3, please replace the paragraph with the following amended paragraph:

The holster includes at least one upper comb pocket and at least two lower scissors pockets. The comb pocket and scissor pockets are aligned in separate rows so that hairdresser may easily recall their location on the holster without looking at the pockets. In the preferred embodiment, each scissor pocket includes a removable sleeve designed to hold a pair of scissors. The sleeve is flat, conical-shaped structure made of a rigid plastic or disposable paper. Small holes or openings may be formed on the sleeve that allows hair clippings to be removed from the sleeve when cleaning. During use, an antimicrobial solution may be ~~immeded~~ imbedded or sprayed into the sleeve to disinfect the implement when placed therein. -

On page 4, lines 7-10, please replace the paragraph with the following amended paragraph:

Fig. 14 is a third embodiment similar to the second embodiment showing ~~the~~ a comb pocket ~~being~~ made of a single panel that folds over along a lower edge with loop and ~~hookd~~ hook connectors located on the facing surfaces which hold the outer section of panel over the main section of panel to form the comb pocket.

On page 4, lines 20-23, please replace the paragraph with the following amended paragraph:

The first embodiment, shown in Figs. 1-3, is a the largest embodiment that includes two or more comb pockets 31, 33, 35 each designed to hold one comb 90, two or more scissor pockets 30, 34, 36, 38, 40 each designed to hold one scissors 92, and one razor pocket

1 80 or one clipper holder 86 each designed to hold one razor 82 (or 84) or a clipper 88.

2 On page 5, lines 1-7, please replace the paragraph with the following amended
3 paragraph:

4 Figs. ~~15-6~~ shows 5 and 6 show a second embodiment of the invention, ~~denoted~~
5 ~~holster 20'~~, which uses a holster, denoted 20', that includes one large, upper comb pocket 31
6 designed to hold several vertically aligned combs 90, two scissor pockets 30, 34 each
7 designed to hold one vertically aligned scissor 92, and one razor or clipper pocket ~~82~~ 80
8 designed to hold a razor or clipper 82. Fig. 14 shows a third embodiment of the invention,
9 denoted holster 20'', which is has the same pockets configuration as holder 20' but with one
10 main panel that folds and sewn along three edges to create one large comb pocket 31.

11 On page 6, lines 2-3, please replace the paragraph with the following amended
12 paragraph:

13 Formed around the top opening 53 is an overhanging lip ~~55-56~~ that engages the front
14 surface 20B of the holster 20 when the sleeve 48 is placed into the pocket.

15 On page 6, lines 13-14, please replace the paragraph with the following amended
16 paragraph:

17 The flexible sleeves 60 may be dispensed from a dispenser 70, shown in Fig. ~~16~~ 15,
18 which conveniently holds a roll 72 with a plurality of sleeves 60 formed thereon.

19 On page 6, lines 15-17, please replace the paragraph with the following amended
20 paragraph:

21 As stated above, formed below the lower row of scissor pockets 30, 34, 36 is a razor
22 pocket 80 is designed to hold an electric razor 82 or a blade razor 84. In Fig. ~~3-2~~, the pocket
23 80 is replaced by clipper holder 36 designed to hold an electric clipper 88.

1 On page 6, lines 18-23, please replace the paragraph with the following amended
2 paragraph:

3 In a third embodiment, as shown in Fig. 13, the holster ~~20''~~ 20' ~~includes~~ may include
4 a removable rear panel 90 attached to the rear surface of the main panel 20A. Hook and loop
5 connectors ~~92, 93~~ 101, 102, respectively, are located at the corners of the rear surface of the
6 main panel 20A around the rear opening 21 to selectively attach the rear panel ~~70~~ 90 to the
7 main panel 20A. During use, the rear panel 90 is selectively removed to clean out hair
8 clippings 100 that may have fallen into the comb pocket 30.

9 On page 7, lines 1-8, please replace the paragraph with the following amended
10 paragraph:

11 Fig. 14 shows a second embodiment of the invention in which the holster ~~20''~~ 20' is
12 includes an hour-glass main panel 20A that includes a lower section 20B that folds upward
13 and over to form one large comb pocket. Hook and loop connectors ~~92, 93~~ 101, 102 are used
14 to connect the lower section over the front surface of the main panel 20A to form one large
15 comb pocket. . Aligned, registered and sewn around three edges over the outer surface of the
16 front panel is a scissor pocket panel that forms the two scissor pockets. A razor panel is
17 aligned, ~~and~~ registered and sewn around three edges over the outer surface of the front panel
18 below the scissors pocket panel to form a razor pocket as described in holster 20'.
